

Jade Holistic Spa

Jade Holistic Spa seeks out the formula for wellness that works best for each individual client then offers the inspiration, information and tools you will need to attain balance and beauty. Tranquility begins with the soothing music and intoxicating scents you experience when you enter the Caledon spa. Owners Donna Pace and Daniel Lacoste believe the products that touch your skin should be free of synthetic substances. Daniel is an acupuncturist and registered holistic allergist whose work includes maintaining the body's natural energy, acupuncture-based facial rejuvenation and eliminating the symptoms of allergy with Bioenergetic Intolerance Elimination. Donna is a certified esthetician and holistic nutritionist who specializes in skin care. She uses such skin care lines as Jurlique and Eminence to soothe the skin with organically grown plants. Among the many signature facials is the Oxygen Facial, which nourishes the skin with oxygen, botanicals, trace minerals, enzymes and amino acids. Other treatments include laser hair removal, photo rejuvenation, anti-aging facial peels and non-surgical facelifts that employ microcurrents to firm and tone the skin while smoothing out wrinkles and stimulating cellular renewal. The spa uses organic wax, organic floral waters and mineral-based makeup that is good for your skin. All products and procedures have been extensively tested for safety and effective results. Discover your best self while experiencing individually designed treatments at Jade Holistic Spa.
